

# 3 Ingredient Sensory Bottle

## You Will Need

- Water
- Oil
- Food colouring
- Glue for the lid
- Glue gun or strong glue

## Method

1. Mix the water and food colouring in a separate container until you get the desired colour.
2. Next, open up your water bottle and pour in baby oil up to half way.
3. Finally add the water to the oil and secure the lid tightly.
  4. Glue the lid onto the bottle for safety.
  5. Give the bottle a good shake and watch!
